Projects

Hevrat Shalom Congregation
I created wireframes on a sketch, a moodboard and visual mockups. Then I put them on WordPress by using visual page builder (Divi). I'am taking care of the website by:
- Updating calendar, application form, media links and information.
- Maintaining the website

ABMSP-SDO
American Board of Multiple Specialties in Podiatry – The Standards Development Organization. For this site, I worked on sketch application to create wireframes, a moodboard and visual mockups. Then I created them on WordPress by using visual page builder (Divi).

ABMSP
I worked with a development team:-
- Providing graphic artifacts, CSS and HTML, Designing application forms,
- Updating article and information,
- Creating annual report by analyzing data from Google Analytics.
Note: The contract ended (March, 2022) so the design has been changed

Work Experience

WDG Interactive | Freelance Web and Graphic Designer
- Create moodboards, wireframes and prototypes
- Using Page Builder on WordPress to create pages, views and blocks, translating wireframes/mockups into responsive website pages and creating, dealing, and posting web contents
- Create the annual report from Google Analytics for website

Sukhumvit Media Marketing | Graphic Designer
- Designed and created numerous newsletters, books, leaflets, calendars, roll ups and manual books. created mockups before finishing the final designs
- Managed up to 5 projects or tasks at a given time while under pressure to meet weekly deadlines
- Met clients for providing the accurate designs and give them advise outside the company
